DISCLAIMER

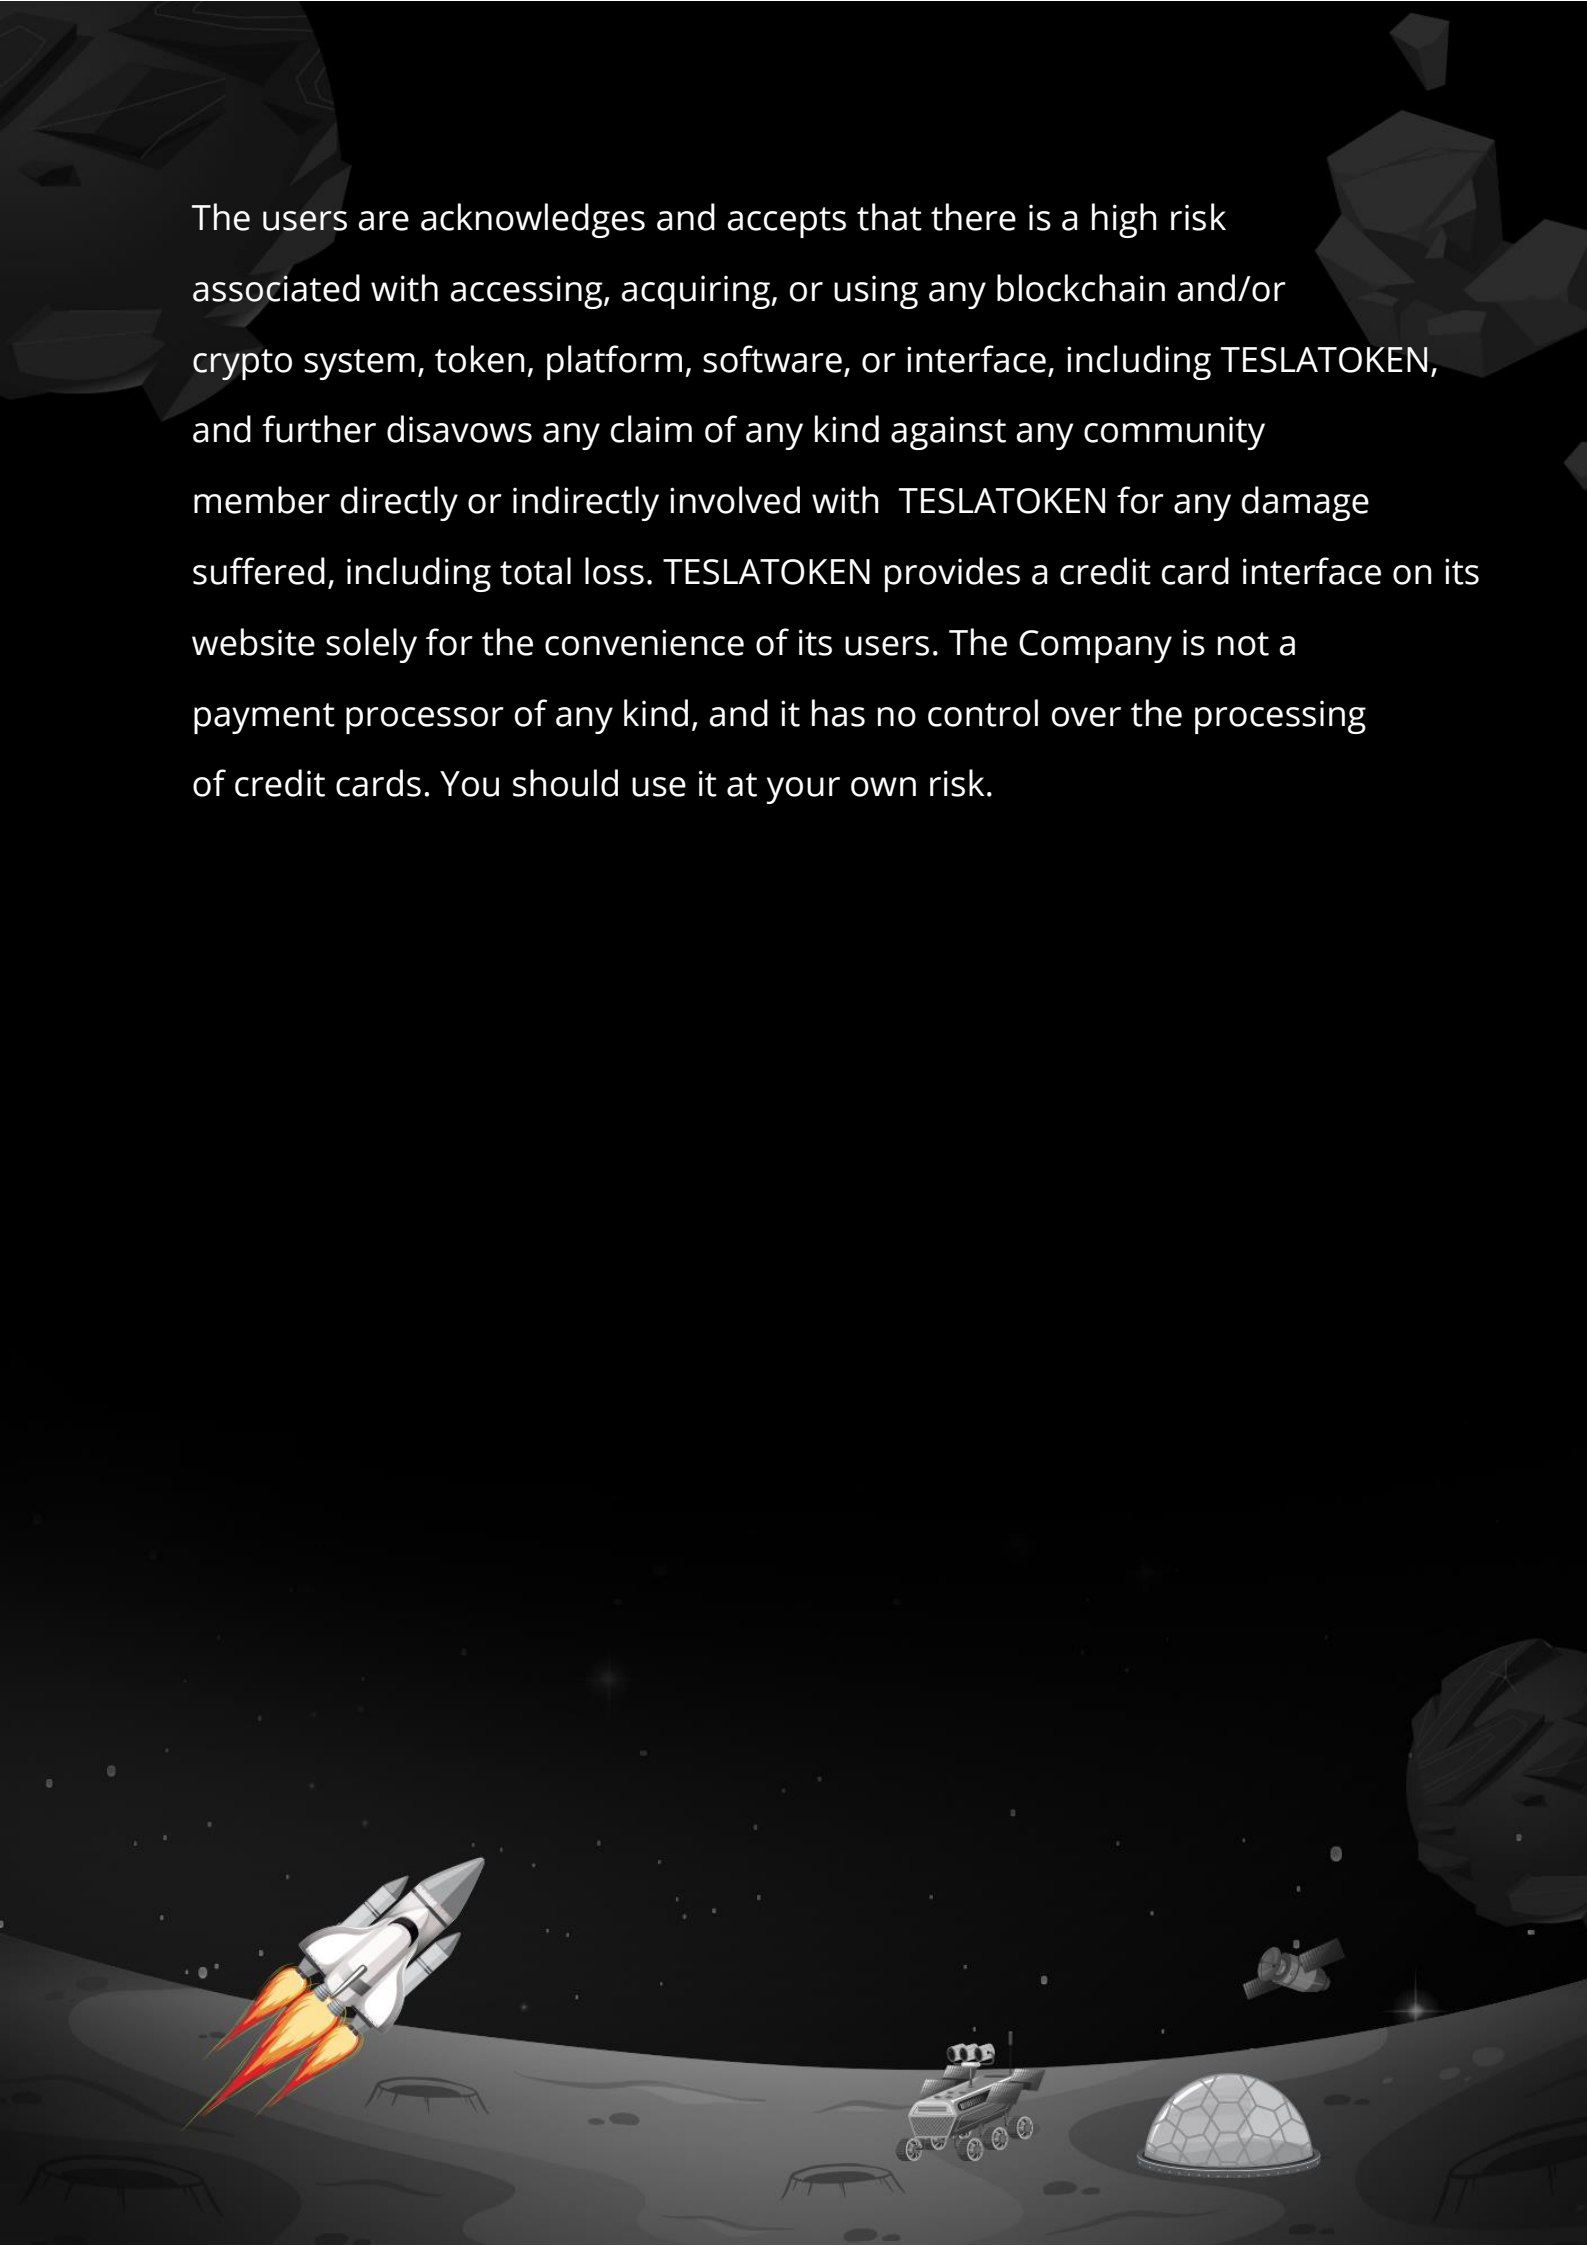

TESLATOKEN, not limited to the overall project, token, website, smart contracts, and any apps ("TESLATOKEN"), as described in this conceptual paper, is not a licensed, unlicensed, or exempted financial or payment service in any jurisdiction. Any terminology used in this Whitepaper, on the Website, or within the app is intended only as a guideline, with no legal or effective meaning in a regulated or financial environment.

TESLATOKEN is a community - driven, decentralized project with no owners, shareholders, promoters, marketers, managers, directors, or other figures or entities exercising any form of governance. The TESLATOKEN smart contracts are open-source, security-audited, permanent, and irreversible. In all jurisdictions, the TESLATOKEN token is strictly a utility token and is not and cannot be considered a "security" or any other type of regulated token.

TESLATOKEN is not an e money or fiat currency, nor is it an asset backed stablecoin, whether global or local. This Whitepaper does not constitute a contract or any other type of contractual agreement, nor does it constitute an invitation, solicitation, or offer to invest in TESLATOKEN or to acquire or use X tokens in any way with the expectation of profit. Before and after accessing and/or reading this Whitepaper or the Website, and/or using any portion or element of TESLATOKEN, any user represents and warrants that such user has received appropriate technical, administrative, regulatory, and legal advice (including the TESLATOKEN token).

The users are acknowledges and accepts that there is a high risk associated with accessing, acquiring, or using any blockchain and/or crypto system, token, platform, software, or interface, including TESLATOKEN, and further disavows any claim of any kind against any community member directly or indirectly involved with TESLATOKEN for any damage suffered, including total loss. TESLATOKEN provides a credit card interface on its website solely for the convenience of its users. The Company is not a payment processor of any kind, and it has no control over the processing of credit cards. You should use it at your own risk.

OVERVIEW

Cryptocurrencies hold the promise of making it easier to transfer funds directly between two parties, without the need for a trusted third party like a bank or credit card company.

In modern cryptocurrency systems, a user's "wallet," or account address, has a public key, while the private key is known only to the owner and is used to sign transactions. Fund transfers are completed with minimal processing fees, allowing users to avoid the steep fees charged by banks and financial institutions for wire transfers.

It can be seen that the crypto system and Defi are now becoming one of the important trends and a very potential market, when we talk about the financial market. Cryptocurrency is trusted and invested by Billionaires around the world.

Elon Musk, the American billionaire is already very famous for the world's leading technology projects. He is also known to be a cryptocurrency advocate. Therefore, MuskSwap was born, to support this ideal of Musk as well as the future of cryptocurrency, building an eco-system including: \$MUSK, \$TESLATOKEN, \$TESLA, \$STARLINK.

MISSION

TESLATOKEN token is one of the members in the ecosystem under MuskSwap. TESLATOKEN will be developed as one of MuskSwap's hottest projects. TESLATOKEN is born for members who are interested in and support ELON MUSK's space project. His project Space Exploration Technologies Corp. (TESLATOKEN) is an American aerospace manufacturer, space transportation services and communications corporation headquartered in Hawthorne, California.

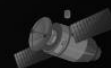

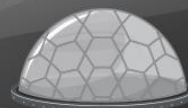

TESLATOKEN is the native token. Muskswap's TESLATOKEN is developing its own system of products such as Exchange, NFT, etc. This will be an extremely solid stepping stone to complement Musk's Ecosystem which also includes \$MUSK, \$TESLA, STARLINK. TESLATOKEN also has the grand goal of becoming an independent blockchain line. Our goal is to quickly become an intermediary system for the flow of decentralized money, the fulcrum for the decentralized financial system.

WHAT IS MUSKSWAP ?

Muskswap.io is a DeFi platform built on Binance Smart Chain. Inheriting values and strengths as well as removing the drawbacks from the other DeFi projects like Uniswap, Sushiswap, 1inch, Pancakeswap, etc, the platform is believed to become one of the most notorious projects in the DeFi world.

The ecosystem also includes \$MUSK, \$TESLATOKEN, \$TESLA, \$STARLINK, the symbols of which show the most famous super projects of Elon Musk. Those tokens are in development & coming soon to the community!

Currently, the price of \$MUSK is having a drastic change, when we compare it to the starting time of this coin. Besides, the fact that \$MUSK has recently added additional decentralized financial systems is very important information for investors, because it means that they are developing in the right direction, and has the potential to become a great macro project.

TESLATOKEN POTENTIAL

As mentioned above. Musk's system includes: \$MUSK, \$TESLATOKEN, \$TESLA, \$STARLINK. This will be a very good mutual support system, and investors can feel secure when participating in this system. In this ecosystem, MUSK and TESLA were launched and gained significant added value. MUSK increased 10-18 times, TESLA increased 5-10 times custom score.

This remarkable growth will also be a basis for investors to be confident in future MuskSwap projects such as \$TESLATOKEN. \$TESLATOKEN is expected to achieve the same success as the predecessor \$MUSK and \$TESLA did.

Owning a TESLATOKEN coin will help you gain many benefits in the future.

TESLATOKEN DEX FEATURES

Like every DEX exchange, TESLATOKEN is a-peer to peer (P2P) marketplace that connects cryptocurrency buyers and sellers. In contrast to centralized exchanges (CEXs), TESLATOKEN are non custodial, meaning a user remains in control of their private keys when transacting on a DEX platform. In the absence of a central authority, TESLATOKEN employs smart contracts that self execute under set conditions and record each transaction to the blockchain. These trustless, secure transactions represent an accelerating segment of the digital asset market, and are pioneering new financial

products. TESLATOKEN has a liquidity pool. Stake your LP (liquidity provider) tokens to earn X token and other tokens in the ecosystem \$TESLATOKEN, \$TESLA, \$STARLINK. (100% ~ 500% APY)

Joining the MuskSwap community, the members have the place to share their thoughts and update the latest actions of this billionaire. Members can collect all of the related tokens \$MUSK, \$TESLATOKEN, \$TESLA, \$STARLINK, the symbols of which show the most famous super projects of Elon Musk.

TESLATOKEN NFT MARKET

NFTs allow you to buy and sell ownership of unique digital items and keep track of who owns them using the blockchain. NFT stands for “non-fungible token,” and it can technically contain anything digital, including drawings, animated GIFs, songs, or items in video games. An NFT can either be one-of-a-kind, like a real-life painting, or one copy of many, like trading cards, but the blockchain keeps track of who has ownership of the file.

Catch up with the huge potential that NFT brings to the market in the future. TESLATOKEN will develop these NFT related projects. There will be close relationships with other tokens in the MUSK system

TESLATOKEN INDEPENDENT BLOCKCHAIN LINE

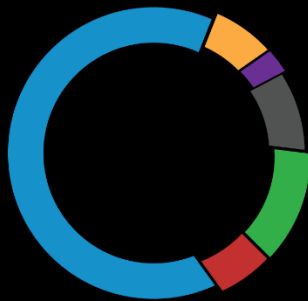

With the effective support from the system that has been completed and strongly developed from MUSK's Ecosystem. TESLATOKEN's desire in the near future is to develop this segment, with the goal of being a competitor in parallel with major platforms in the market such as ETH, BSC,,.... This is not only the desire of TESLATOKEN and their investors. It is also the desire and effort from software developers, CEOs, CMOs, and all members of the MUSK system. With what has been achieved, and obtained results, through previous projects. TESLATOKEN hopes to continue this success, and even develop further.

TESLATOKEN TOKENS

THE TESLATOKEN is one of the potential tokens of the MuskSwap Ecosystem.

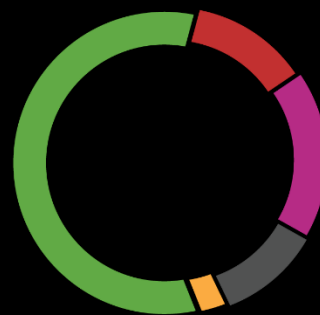

Total supply: 85,000,000,000 \$TESLATOKEN

CONCLUSION

In summary, all you can get from TESLATOKEN is a very good support system from MUSKSWAP Ecosystem. TESLATOKEN offers investors features that are not different from other DEX platforms on the market, but better, because there is a whole back-end system. With development potential from previous projects. TESLATOKEN expects to achieve fast and strong growth like its predecessors. This can be said to be one of the most expected and invested Decentralized projects in the near future.
